

ROHITH SARAVANAN

Linkedin - rohith200589 | rohith123456che@gmail.com | +91-6381548429 | Chennai, India

EDUCATION

CHENNAI INSTITUTE OF TECHNOLOGY , TAMIL NADU , INDIA

Bachelor of Technology - Computer Science And Business Systems

September 2023 – July 2027

9.08 / 10

ACHIEVEMENTS

- Solved 450+ problems on LeetCode, ranked in the top 18.69%, with the highest contest rating of 1635, with expertise in Python.
- Developed a robust understanding of Data Structures and Algorithms through extensive practice on CodeChef and CodeForces.
- Semi-finalist in the Intercampus Codeathon (HackerRank), Yukthi Competition and Talkathon among the top colleges in Chennai.
- Recognized as a Top Performer during a 10-week internship at Infosys, contributing to Frontend, Backend and Power BI Analysis.
- Achieved finalist status among highly skilled competitors in the Google Developers Group On-Campus Program 2024–2025.

EXPERIENCE

Infosys - Django Developer - Remote Internship

NOV 2024 - JAN 2025

- Optimized ORM queries and implemented caching strategies, enhancing API efficiency and reducing response time by 40%.
- Built a modular Django application with RESTful APIs, enhancing code reusability and ensuring seamless backend integration.
- Developed dynamic frontend components using Django templates and JavaScript, enhancing the overall UI experience.
- Actively participated in 50+ daily stand-ups, 10+ sprint planning sessions, and 20+ code reviews, ensuring 95% on-time project delivery with high-quality software releases.

Google - AICTE - Android Developer - Remote Internship

AUG 2024 - SEP 2024

- Explored Android app development with Kotlin, building high-performance applications using concise and efficient code.
- Developed solid expertise in Kotlin, Android SDK, and Android Studio, creating impactful and user-friendly applications.
- Showcased strong problem-solving skills and a drive to learn cutting-edge technologies in mobile app development.
- Developed solid expertise in Kotlin, Android SDK, and Android Studio, creating impactful and user-friendly applications

PROJECTS

InFoodSys - Online Food Delivery System - Infosys Intern Project

[GITHUB LINK](#)

- Developed dynamic frontend components with responsive design, optimizing load time by 40% for seamless user experience.
- Designed an intuitive, user-centric UI using Django templates, JavaScript, and Bootstrap, improving user engagement by 35%.
- Integrated live geolocation tracking with an interactive map interface, providing real-time status updates for customers.
- Implemented real-time data visualization in Power BI, creating interactive dashboards that provided actionable business insights for data-driven decisions. Utilized ODBC driver support to seamlessly connect SQLite3 database with the Power BI platform..

Davis - AI-Driven Dynamic Data Visualizer

[GITHUB LINK](#)

- Dynamic Data Analysis: Automatically analyzes CSV uploads, offering AI-driven suggestions for graph axes and generating insights via Hugging Face API. Processes up to 1,000 datasets daily, enhancing data accuracy and analysis speed.
- Interactive Visualizations: Enables users to create dynamic line graphs, bar charts, scatter plots, and pie charts using Plotly, ensuring responsive displays. Increased user engagement by 30% through interactive visual tools.
- Natural Language Querying: Processes user queries in natural language, providing AI-driven insights for data-driven decision-making. Improved decision-making efficiency by 25% with automated visual analytics.
- Web-Based Application: Built with Dash for seamless deployment, supporting CSV uploads and real-time data visualization via the Python backend. Optimized for single-user interactions, ensuring smooth performance with minimal latency.

TraGo - Flutter Based Bus Tracking Application

[GITHUB LINK](#)

- Responsive UI: Built a highly adaptive Flutter UI, supporting 20+ device resolutions with optimized adaptive layouts.
- Custom Widgets: Interactive Flutter widgets for dynamic bus stop displays, ETA tracking, and smooth navigation.
- Performance Optimization: Utilized Flutter's efficient state management techniques, improving app performance by 25%. Reduced load time across multiple devices, ensuring smooth and responsive interactions.
- User-Centric Features: Implemented custom notification services for real-time updates, enhancing user engagement by 30%. Delivered timely alerts and reminders, significantly improving user retention and satisfaction.

SKILLS

- Languages:** C++, Java, Python, SQL, HTML, Kotlin, MongoDB
- Web Development:** React.js, Node.js, Next.js, Nest.js, Vue.js, Django
- Data Science Libraries:** NumPy, Pandas, SciPy, Matplotlib, Seaborn
- Tools & Platforms:** Git, GitHub, Eclipse, VSCode, Android Studio, Google Cloud, Power BI
- Soft Skills:** Leadership, Event Management, Public Speaking, Teamwork, Adaptability
- API Integration:** REST APIs, GraphQL

CERTIFICATIONS

- Meta Front-End Developer Professional Certificate - Coursera
- Google Cloud IAM and Networking for AWS Professionals - Coursera
- Meta Android Developer Professional Certificate - Coursera
- Data Visualization with Tableau - Coursera
