EDUCATION

Chennai Institute of Technology

Bachelor of Technology in Computer Science and Business Systems

CGPA: 8.75

2023 – 2027

EXPERIENCE

Full-Stack Developer Internship

Jan - Mar 2025

Kaizenspark

Remote

- **Project-Based Development** – Completed a rigorous 2-month project-based internship focusing on full-stack web development.
- **Technical Proficiency** – Demonstrated exceptional skills in both frontend and backend technologies, achieving proficiency in the full-stack domain.
- **Professional Growth** – Exhibited remarkable initiative, adaptability, and passion for learning while embracing challenges with enthusiasm.
- Successfully delivered project milestones with outstanding performance and unwavering dedication throughout the internship duration.

Research Internship

Nov - Dec 2024

Chennai Institute of Technology

Chennai, TN

- **Real-Time Sign Language Interpretation Review** – Authored a comprehensive review paper analyzing machine learning models for sign language interpretation.
- **Emotion Detection Research** – Developed a research paper on "Emotion Detection with Voice Recordings: A Deep Learning Approach".
- Prepared for publication, highlighting future scopes of AI/ML in human communications.

PROJECTS

DOC BOOK 📖 | Flutter

Healthcare App

- Developed a healthcare appointment booking application enhancing access to nearby hospitals and doctors.
- Designed doctor search feature with filtering by location, specialization, and availability.
- Created a history tracking system for reviewing past appointments.

Flappy Bird AI 🐦 | Python, NEAT

AI Game Agent

- Developed an AI agent playing Flappy Bird using the NEAT algorithm.
- Implemented game mechanics and environment simulation in Python.
- Demonstrated neuroevolution and reinforcement learning techniques.

Emotional Detection from Voice 🗣️ | Deep Learning

ML Project

- Developed an AI model for speech-based emotion recognition using deep learning.
- Utilized datasets: RAVDESS, CREMA-D, TESS, and SAVEE.
- Implemented CNN+LSTM architecture achieving high accuracy in classifying 8 distinct emotions.

ACHIEVEMENTS

- ✓ **Competitive Programming** – LeetCode - 700+ problems, max. rating: 1734, Codechef - 90+ problems, max. rating: 1400.
- ✓ **HackCIT** – Finalist in competitive programming challenge.
- ✓ **Vice President** – Led Zorphix '25 symposium organization.

CERTIFICATIONS

- ✓ **Full-Stack Developer Internship** (Kaizenspark)
- ✓ **Android Developer Internship** (AICTE-Google)
- ✓ **Process Mining Foundations** (Celonis)
- ✓ **Introduction to Data Science** (Coursera-IBM)
- ✓ **Cybersecurity Essentials** (CISCO)

TECHNICAL SKILLS

Languages: Python, Java, HTML/CSS, JavaScript, C++ , Dart

Technologies: Node.js, Express.js, Django, Flask, Flutter, Keras, TensorFlow

Developer Tools: Git, VSCode, GitHub, Docker, MongoDB Compass, MySQL Workbench

Domain Knowledge: Software Development, Networking, ML, Human Computer Interaction
