Software Developer Intern | IBM

<https://www.linkedin.com/in/suryad-x04/>

B.TECH - CSE | VELLORE INSTITUTE OF TECHNOLOGY - 2025

<https://github.com/surya-d007>

FULL STACK DEVELOPER | AWS SOLUTIONS ARCHITECT | GEN AI & AI AGENT DEVELOPER

EXPERIENCE

Software Developer Intern | IBM | Bangalore

On site

Jan 2025 - till date

- At IBM CIO, I built an automation system accessible via Slack bot, streamlining IT workflows. I am also developing a RAG-based LangChain LLM to analyze error logs, identify root causes, and provide solutions. This enhances incident resolution and improves system reliability.

Full Stack Software Developer | Daira Edtech Pvt Limited | Chennai

June 2024 - July 2024

- Led the team in developing an AI-driven mentorship web portal, facilitating seamless student-faculty communication, project launches, reviews, and collaboration for over 4,000 users.

Web Developer Intern | Jumpstart | Chennai

On site

Sep 2023 - Nov 2023

- Developed a responsive company homepage using Angular.js aimed at enriching user experience in navigating the web portal. (<https://aimagix.com>)

EDUCATION

B. Tech Computer Science & Engineering
Vellore Institute of Technology

8.67 CGPA

2021-2025

SKILLS

- Full Stack : MERN , Next.js, React.js, Node.js, Express.js, MongoDB, Angular.js, Flask, Tailwind, Bootstrap.
- App Development : React Native, Expo
- Cloud Services : AWS, Heroku, IBM Cloud
- LLM - RAG, Lang-Chain PipeLines, Lang-Graph, Sentence Transformers, Embeddings, Vector DBs , AI Agents, OpenAI , llama, Watsonx.ai.
- Programming Languages : Java, Python, JavaScript, SQL
- APIs Version Control : REST APIs, Git, Github, Postman

PROJECTS

Personalized Book recommending Web Application | <https://github.com/surya-d007/Folio.git>

React.js, Node js, Google Books API , Gemini AI Studio API-chatbot & model, Mongo DB, AWS

- Cook off hackathon : Won 2nd Place, VIT - Chennai.**
- Built a Web application that leverages Google APIs to offer dynamically curated books recommendations, enhanced by robust search functionality (40 million books), personalized reading lists , an interactive chatbot, and sentiment analysis-driven reviews.

Travel Planning & Itinerary Generator -Mobile | <https://github.com/surya-d007/TravelPlanner-ReactNativeExpo>

React native, Expo, Node, Google Maps API, Chat GPT API, Mongo DB, AWS S3, Figma.

- Designed & developed a mobile app allowing users to create optimized trip plans for up to 40 destinations.
- The app integrates Google Maps and Chat GPT APIs to generate PDF report that include detailed Google locations, maps, personalized travel insights, travel distances, budget breakdowns, and helps to save 10% travel cost

Dyslexic Reading Assessment Web Application | <https://github.com/surya-d007/Schonell-Reading-test>

Node js, EJS, Mongo DB, Azure speech to text, AWS

- Successfully developed an innovative tool that achieves 80% accuracy in diagnosing dyslexia and significantly reduces assessment time.
- This user-friendly web application integrates the Schonell Reading Test, offering a faster and more efficient evaluation process for individuals aged 5 and up.

Multi-Stage Authentication System using Face and Voice

Flask, CNN voice Model, Node js, Azure Speech to text

- Created an innovative authentication platform integrating 3 level security (face recognition, voice verification and speech-to-text).

CERTIFICATIONS

- AWS Certified Solutions Architect - Associate
- AWS Certified Cloud Practitioner
- Full Stack Web Development (Udemy)
- Large Language Models (LLMs) (Udemy)
- LLM - Retreival-Augmented Generation (RAG) & Lang-Chain (Udemy)
