Certifications

- **Certificated** 70-480 Programming HTML, CSS and JavaScript
 - **Certificated** Microsoft Azure Fundamentals and Developing Solutions for Microsoft Azure 900
-

Projects

Web Application (Accenture tool)

Role: UI Team Lead

Description: Change Platform: Working with 2 applications and 2 teams. I have taken on a lead role and assisted the team in various capacities. I utilized technologies such as HTML, SASS, PostgreSQL, ReactJS, Bootstrap5, Git, Python and Material UI to deliver effective solutions.

Description: Studio/Client Portal/Design Library/Template Conversion: With over three years of experience in support and enhancement projects within Studio application, we can create and edit the project with all platform/industry/technology as per client requirement. So, it will reduce the time and reuse the application. I have taken on a lead role and assisted the team in various capacities. I utilized technologies such as HTML, CSS3, SQL, ReactJS, Bootstrap5, SharePoint, MYSQL, JavaScript, and jQuery to deliver effective solutions.

World biggest utility company (PSE)

Role: Senior UI Developer

Description: With over a year of experience, I led a scratch project to develop a responsive website based on Sitecore with SXA for a U.S. client. This solution was designed to help the client's partner companies effectively understand their services and products. In a lead role, I guided the team and utilized technologies such as PUG templates, SASS, Bootstrap, Gulp,

JavaScript, and jQuery. I received two ACE awards for this project, along with multiple gift vouchers and several commendations from both the client and management for my contributions and delivery.

World's largest insurance (Chubb Pvt Ltd)

Role: Senior UI Developer

Description: With over one year of experience in support and enhancement projects within the CICA (Imaging Team), I have taken on multiple roles, including UI designer and front-end developer. I have utilized technologies such as Bootstrap, HTML5, CSS, XForms, BPM Java, JavaScript, jQuery, CORDS, and AngularJS on the OpenText platform to deliver effective solutions.

SharePoint portal (Paccar)

Role: Senior UI Developer

Description: With one year of experience, I contributed to a scratch project for PACCAR, a leader in the design, manufacture, and customer support of light, medium, and heavy-duty trucks under the Kenworth, Peterbilt, and DAF nameplates. I developed a responsive portal site utilizing the Bootstrap framework and SCSS, featuring dynamic content integrated with SharePoint Online.

Digital Transformations for leading media and sports (Cricket Australia)

Role: Senior UI Developers

Description: With one year of experience in a support project, I assumed multiple roles independently for Cricket Australia's digital transformation initiative. This comprehensive project included mobile application development, web portal implementation, analytics, social media integration, and content management across all digital properties. I delivered and maintained digital assets, enhancing the ability of cricket fans to receive personalized content on any device using the Sitecore platform. My work involved technologies such as HTML5, SCSS, LESS, PHP, and AngularJS.

Web Application (Volvo cars)

Role: UI Developer

Description: With over a year of experience, I contributed to the development of a scratch project called Digital Showroom. This application aims to digitalize car specification details for Volvo showrooms, enhancing the user experience significantly. I implemented a responsive single-page application featuring swipe and scroll functionality, text resizing, and dynamic content. The project utilized technologies such as HTML5, CSS3, Bootstrap, BackboneJS, and jQuery, and was successfully integrated with the Sitecore platform.

Awards and Honors

- **Best Project Delivery ACE Award**, Accenture Service Pvt Ltd., 2019
- **Best UI developers ACE Award**, Accenture Service Pvt Ltd., 2019
- **Expertise in Front end development**, Accenture Service Pvt Ltd., 2018
